MEET ALEXIS

Alexis enrolled in a \$50,000 universal life insurance policy with chronic illness benefits through her employer. Alexis feels better knowing there would be financial support for her family if she would need early caregiving, or if she passes.

ADDITIONAL BENEFITS:

Chronic Illness Rider: The Chronic Illness Rider can provide a monthly payment of 4% of the death benefit for up to 25 months (100% of the death benefit) if the insured is diagnosed with a chronic condition and, in the best medical judgment, is unable to attend to basic physical activities such as eating, toileting, bathing, grooming, dressing, or ambulating for at least 90 days; or has severe cognitive impairment or a similar form of dementia.

Extension of Benefits Rider: Once the full death benefit has been exhausted under the Chronic Illness Rider this rider will continue to pay the same monthly percentage amount, as the Chronic Illness Rider up to an additional 100% of the death benefit.

Benefit Restoration Rider: This rider will restore 100% of the death benefit that is accelerated under the Chronic Illness Rider, leaving a full death benefit for the beneficiary.

Child Term Insurance Rider: This rider allows an insured team member or spouse (but not both) to insure all eligible children, age 15 days and no older than age 25 years, for the selected amount of term insurance.

¹ Loans, withdrawals, and death benefit accelerations will reduce the policy value and the death benefit and may increase lapse risk. Policy loans are tax-free provided the policy remains in force. If the policy is surrendered or lapses, the amount of the policy loan will be considered a distribution from the policy and will be taxable to the extent that such loan, plus other distributions at that time, exceed the policy basis.

* Adjusting the premium of a Universal Life insurance policy could result in over- or under-funding the policy. As a result, the life of the policy could be affected.

LIMITATIONS AND EXCLUSIONS

If the insured withdraws the cash value, tax consequences and/or surrender charges may apply. Fluctuations in interest rates or policy charges may require the payment of additional premiums. Individuals currently on disability or on premium waiver are not eligible for insurance. During the first two years, the death benefit for suicide is limited to the return of premiums paid, less any loans, partial surrender amounts, and accelerated benefits paid, if any; **ACCELERATED DEATH BENEFIT FOR CHRONIC ILLNESS RIDER:** Transamerica will not pay rider benefits for care that is received or loss incurred as a result of: an intentionally self-inflicted injury or attempted suicide, war or any act of war, declared or undeclared, or service in the armed forces of any country; the insured's alcohol, drug, or other chemical dependence, except if the drug dependency is for a drug prescribed by a physician in the course of treatment for an injury or sickness; the insured's commission of, or attempt to commit, a felony; or an injury that occurs because of the insured's involvement in an illegal activity.
